

SIERRA MADRE NEWS

VOL. VI.

SIERRA MADRE, LOS ANGELES COUNTY, CALIFORNIA, FRIDAY, AUGUST 28, 1914

NO. 48

JOHNSON IS FAVORITE IN SIERRA MADRE

Governor Johnson looks good to the voters of Sierra Madre, judging by the returns from Tuesday's primary vote. He received nearly half of the 240 votes cast for gubernatorial candidates of all parties. His total was 112, of which 94 were cast by Progressives and 15 Republicans.

Republicans led the field by one vote in number of ballots cast for head of the ticket. Of the total of 96 Republican ballots, Fredericks received 72 and Johnson 15, the remainder being well scattered. Of the 95 Progressive votes for governor Johnson received all but one. Of the 35 Democratic votes for governor, White received 21 and the rest divided among several candidates. Johnson's name was written in on one or more ballots of every party but the Socialist.

The total of 295 votes cast by voters of all parties was probably above the average. It represented a little more than 50 per cent of the largest vote that could have been reasonably expected, though the registration runs over 700.

Contest on Attorney

Next to the contest over the head of the ticket the greatest interest seemed to center on candidates for district attorney. Woolwine came out away to the good with 114 votes. Ford was second with 86 and Morgan a poor third with 32. Woolwine received nearly as many as Ford and Morgan together.

Another interesting and surprising result was the vote on Supervisor. John J. Hamilton received 137, and Captain Manning who goes on the ticket with him at the November election received only 26. Thorne, Cobb, Baker and Randle were bunched with Manning. Much of Hamilton's strength was due to the support of Mr. and Mrs. C. C. Nourse who were his old time friends in the east and were able to give him their cordial indorsement.

Judicial Candidates

Judge N. P. Conrey's handling of the Baldwin water condemnation suit was evidently remembered with pleasure by many Sierra Madre voters, judging by the vote he received for the appellate court nomination. He received 133 votes as against 78 for Craig.

Judge Hewitt was likewise remembered for his work on behalf of the city in water litigation, leading the list of candidates for the superior court with 172 votes. Others of the high men were Jackson with 168, Wilbur with 169 and Shenk with 160. Judge Warren Williams was also well up in the list, receiving 101 votes.

Congressional Candidates

Congressman Bell received the indorsement of Progressive voters while C. H. Randall, the Prohibitionist, ran away with a majority of the Republican and Democratic votes, as well as of the Prohibitionists.

For Justices of the Peace Judges McDonald and Dunham received almost the unanimous indorsement of the local voters.

Count Is Slow

Counting of the ballots was a slow process, keeping the election board at work from the closing of the polls Tuesday evening until late Wednesday. It was practically equal to four ordinary elections by reason of the separate party and non-partisan ballots and tally books required.

Make Tea of Native Herbs

Why should we import tea from China and India and coffee from Brazil when our own meadows, roadsides and gardens contain aromatic plants that could be made to give us just as delicious beverages? asked Dr. Bouquet in an article in the Paris Temps. He suggests the common vervain and the bee balm as examples. Others of which our ancestors used to make infusions are orange blossoms, the buds of lime trees, black currant leaves and mint.—New York World.

Six Rules to Observe to Prevent Disastrous Fires in the Mountains

RULES TO PREVENT MOUNTAIN FIRES

Precautions of the simplest kind would eliminate most of the loss resulting from forest fires, as shown by reports on the causes of the fires in the reserves last season.

Much could be accomplished by observance of the following six simple rules:

1. Be sure your match is out before you throw it away.
2. Knock out your pipe ashes or throw away your cigar or cigarette stump where there is nothing to catch fire.
3. Don't build a camp fire any larger than is absolutely necessary. Never leave it even for a short time without putting it OUT with water or dirt.
4. Don't build a camp fire against a tree or a log. Build a small one where you can scrape away the needles, leaves or grass from all sides of it.
6. If you discover a fire, put it out if possible; if you can't put it out, get word to the nearest U. S. forest ranger or state fire warden just as quickly as you possibly can.

LANDS A FAT BUCK

Several bucks have been reported as killed during the past week, though the number for the season is still considerably below the average and hunters report deer unusually difficult to find, not to mention shooting. Arthur Carter who is stationed on Pine Flats in the government service shot a fine two-point buck during the week. Those who saw the animal report it as remarkable for the amount of fat it was carrying. Some of the men who see "signs" in everything take the fat to indicate that a severe winter is ahead with lots of snow and feed hard to find, and the deer accordingly put on fat for protection against starvation and cold. Other people more matter of fact simply take the fat to indicate that the buck has been finding rich pickings and making the most of indulging a good appetite. Dale Brown and Norman Olsen went out one day last week and brought down a nice buck without going many miles from home. William Wright also shot a buck while in the San Bernardino mountains.

FLYER WILL NOT STOP

Sierra Madre cars will continue to run as flyers through Alhambra and South Pasadena, stopping only at Fletcher Avenue and junction points, according to an order of the state railroad commission issued August 1 and just received by the city officials. The order was issued in denial of a request filed by residents in the neighborhood of La Senda station who wanted all cars stopped at their station. The hearing was held before Commissioner Thelen in June. In his opinion Mr. Thelen points out the fact that Sierra Madre and Monrovia cars already have difficulty in making schedule time and carry capacity loads during rush hours. To make the additional stop, he says, would be an injustice to those towns, as every commuter knows. After examining the check sheets of all cars concerned Mr. Thelen recommended that sufficient cars be placed in service on the Oak Knoll line to seat the passengers getting on at La Senda and Fletcher avenue, thus affording the relief sought by the La Senda people and relieving somewhat the crowded condition of the Sierra Madre and Monrovia cars which have had to handle much of the Fletcher avenue traffic.

AN INTERESTING BIBLE

On exhibition at the News Office is a Bible owned by Mr. and Mrs. George Gould of Sierra Madre which is rated as very valuable. Mr. Gould says he has been offered several thousand dollars for it and has been unable to find any like it in any of the large cities on the coast. The volume is a large family Bible, published by James S. Virtue of London. It is illustrated with numerous fine steel engravings. But the thing which makes it valuable, according to information given Mr. Gould, is the commentary by Rev. Robert Jamieson, D. D., of Glasgow, which is printed on each page below the text. The volume was given to Mrs. Gould by her grandmother and brought over from England several years ago.

CONTRASTS.

The rose and the thorn, sorrow and gladness, are linked together.—Saadi.

Nature hath meal and bran, contempt and grace.—"Cymbeline," Shakespeare.

Those that are good manners at the court are as ridiculous in the country as the behavior of the country is most mockable at court.—Shakespeare.

The little may contrast with the great in painting, but cannot be said to be contrary to it. Oppositions of colors contrast, but there are also colors contrary to each other—that is, which produce an ill effect because they shock the eye when brought very near it.—Voltaire.

LAWN FETE PLANNED

Juvenile Work Will Be Aided by Affair at Krebs Home on Tuesday

Talented artists in abundance and pleasing variety will appear at the lawn fete to be held next Tuesday at the home of Dr. and Mrs. L. L. Krebs in the interest of the Juvenile Protective Association. The beautiful home and grounds will lend themselves admirably for the purpose of an outdoor program such as is planned and the event is expected to draw a large number of people from Los Angeles.

As chairman of the committee on program and arrangements Mrs. Krebs has provided an array of talent that would be expensive in the extreme on the concert stage. But the general admission charge will be twenty-five cents and the same charge for supper tickets. The public is invited to enjoy the program and aid the work of the association by helping to swell the proceeds.

Among the artists who will appear are Antoinette Kopetsky, opera singer and star of the "Chocolate Soldier;" Anthony Carlson, baritone; Vernon Spencer, pianist, and Oskar Sieling, violinist. Constance Crawley and Arthur Maude, the English players, will give the balcony scene from "Romeo and Juliet," on the south balcony in the moonlight. Miss Crawley was Ben Greet's leading woman for nine years and is a cousin of Lord Kitchener. Claire Niles will give classical dances in the moonlight and Ivan Polevich, the Russian dancer, will dance in costume. In the afternoon Miss Wilkes of Cumnock school and a group of her pupils will give a play in the garden. Miss Morton will read dialect sketches. Margaret Allen will give a flower dance with the proper setting. Miss Brinker of Los Angeles will give Spanish dances and Mrs. Harmon Ryus will give piano numbers. From four o'clock there will be a continuous performance with an intermission for supper.

The ladies from Sierra Madre assisting with the supper, punch tables, sweet shop, dancing and through the afternoon and evening are Miss Annis Coffey, Mmes. Osgood, Frank Wright, Nourse, Montgomery, Lettau, Saunders, Fennel, Ernest Yerxa, Neutzel, Gay, Bravinder, Hawhurst, Hopkins, Ward, Conrad, Tarr, and Misses Blumer, Hill, Mason and a number of the younger girls, including the Eleven and One Club. Many Los Angeles ladies will also assist at the affair. Many motor parties are being made up to bring guests from other places and a large attendance is expected.

The Juvenile Protective Association was incorporated in 1910. Its purposes are: To promote study of laws concerning children, to use preventive measures for delinquents, to expedite and consummate legislation, to encourage healthful amusements, to secure playgrounds for all, to centralize work for child preservation, to cooperate with clubs and philanthropic agencies, to be a clearing house for partially organized agencies, and to unify protective work. It has also made efforts to have corrected some of the abuses which are reported concerning parties of young people who come out from the cities to go up the mountain trails.

The officers are: Mrs. Augustus Hine, president emerita; Mrs. E. K. Foster, president; Mrs. A. N. Davidson, first vice-president; Mrs. John J. Abramson, second vice-president; Mrs. J. B. Stearns, recording secretary; Mrs. George Rice, corresponding secretary; Mrs. W. A. Varcoe, treasurer.

Mrs. George Sinsbaugh of Los Angeles and Sierra Madre is a director and honorary vice-president.

The Legal "SS."

The symbol "s.s." used in legal parlance is an abbreviation of the Latin word "scilicet" and means "to wit" or "that is to say." It is used to call attention to what is immediately to follow, introducing explanatory matter relating to what has immediately preceded. Other abbreviations for the same word are "Sci" and "Sc." The word "scilicet" is in itself a contraction of the Latin words "scire licet," and means, literally, "it is permitted to know."—New York Sun.

INDIVIDUAL GROWTH.

It cannot be too often repeated that the ends of society are not realized when there are great aggregate results, magnificent public works, great accumulations of wealth and of the means of sensual and sensitive enjoyment, with the degradation or without the growth of individuals, and that all changes in the form of institutions and the directions of active industry must be futile while they do not originate in or draw after them an improvement in the character of individuals. But it is self evident that society can furnish a free arena for individual growth only as the principles of justice and benevolence are recognized.—Mark Hopkins.

BIG WEEK IN CAMP

Sierra Madre Week at Sturtevant's Sees Much Jollity Among Campers

Sierra Madre week is now on the calendar at Sturtevant's Camp. Naturally there are more Sierra Madre guests in camp than at any other one time this season. And it has been a week of tremendous good times. Reports from camp indicate the tent community has become like a great big happy family and there is something going on nearly all the time.

Among other camp guests are the girls of the T. C. B. Club, chaperoned by Mrs. J. F. Sadler. The club members include Misses Lucile Sparks, Mabel Breininger, Jessie, Marguerite and Beatrice Ward, Helen Sadler, Dora Janson, Mattie and Helen Seeley, Helen G. Williams, and Ruth Abrams. Club guests are Misses Bernice Gates of San Pedro and Ruth Holdredge of Inglewood. The girls are enjoying army routine, with all camp work assigned equally on a regular schedule.

Mrs. W. H. Hannaford arrived in camp on Monday and was joined on Tuesday by Rev. Hannaford and daughter Ruth, who had been enjoying a tramping tour of some of the more remote mountain country. Leaving Sierra Madre early Thursday morning of last week, they went by way of Mt. Wilson and Barley Flats to Pine Flats. On Friday they went on by way of Chilaos and Buckhorn, visiting the camp of C. F. Gray and Greer Caskey. They continued their tour by way of Mt. Islip and Crystal Lake to Coldbrook Camp. Spending Sunday at rest, they went down the North Fork of the San Gabriel to Rincon, thence up the West Fork. They arrived in Sturtevant's Tuesday forenoon. The entire trip was made on foot, carrying such supplies and camp outfit as they needed, which had been sent in advance by pack train to Pine Flats.

Wednesday night the Sturtevant's Camp guests were joined by a party from Hoegge's and a big campfire party was enjoyed. An informal concert and an hour of story telling were led by Rev. Hannaford. Preceding the campfire the T. C. B. party entertained at dinner, with Edward Pelletier and Warner Parker as guests. The mid-week dance was held Thursday night.

Today is to be celebrated as Indian Day. The camp is transformed into a regular rearskin settlement and the canyon is probably ringing with war-whoops mingled with sounds of feasting. Some of the inhabitants were expected to don war paint, while others who have been in camp longer do not find it necessary to deepen the color of their complexions in imitation of the aborigines. For this evening a "puppy roast" is on the program and there will be great rivalry to see which of the braves can put away the largest number of wienie sandwiches.

HARDNESS OF WATER.

Solid Streams at High Velocity Are as Rigid as Iron.

In the American Magazine a contributor gives a most interesting description of the resisting power of water. He says that a solid stream of water shot out of a hose at tremendous velocity is just as powerful and destructive as a rod of iron. An extract from the article giving an idea of the hardness and resisting power of water follows:

"Here is a fact which is probably novel to the average man who has not spent much of his life thinking about motor speed boats. This is what we may call the hardness of the water when a boat is running at speed. Water at fifty miles an hour is not the limpid liquid we are accustomed to bathe in. If you put your arm overboard from a hydroplane running at fifty miles an hour and strike a wave crest the probability is that you will break your arm or wrist, because at that speed the water has not time to give, not time even to change shape, and striking it is like striking so much metal.

"In the great hydraulic mining nozzles, where a stream of water under enormous head is used to wash down hillsides, a swordman, in attempting to cut into one of these streams, will shatter the sword without being able to penetrate the water. The stream is like a bar of iron. The fact that water at relative speed is so hard—or that its inertia is so great, to be a little more accurate—is the reason why a skipping stone travels over the surface and is the reason why a hydroplane boat slides over the surface instead of plowing its way through.

"The picture we must have in our minds, then, of a speed boat is that she is traveling not in water, as we ordinarily understand it, but over the surface of a semisolid, very much as a sled travels over snow."

No Place For Thumb Prints.

Mrs. Flatbush—And you think your little boy steals your pies?
Mrs. Bensonhurst—Somebody does, and I suspect Tommie.
"Well, there's a way you can tell."
"How?"
"By the thumb prints."
"Oh, no, I can't. When Tommie gets through with a pie there aren't any thumb prints!"—Yonkers Statesman.

BLAZE ON MT. WILSON

Although the blaze was not noticed by many Sierra Madre people, a fire that threatened the Carnegie observatory raged all of Saturday night on Mt. Wilson. The fire started at five o'clock in the evening and at one time reached a point less than 150 feet from the observatory.

It was not until two o'clock Sunday morning that the blaze was brought under control and danger of a brush fire in the canyons cut off by the erection of several hundred feet of earthworks along the mountainside.

The blaze started from a lighted fuse shot down the side of the mountain by the force of a blast set off near the big dome of the observatory which has been built to house the wonderful 100-inch telescope now being built.

Before 6 o'clock the brush between the big dome and the place where the burning fuse fell was a great field of fire, and all the men in the construction camps and the observatory had to be called out to make the fight on the advancing flames, which threatened the safety, not only of the regular observatory buildings, but of the Carnegie solar observatory structures.

It soon appeared that unless something were done to check the fire farther from the observatory buildings the mountainside would be denuded and Strain's camp and the hotel, both filled with guests, would be cut off by a wall of flame.

Mr. Hoge of the observatory forces, and Construction Superintendent George B. Jones divided a force of about twenty men into two parties, one of which fought the fire from above while the other worked frantically constructing earthworks on the lower edge of the fire to stop blazing twigs and brush from falling into the thickly wooded canyons below. Calls for aid sent to Strain's camp and the hotel brought extra fire fighters.

THREE BAD ALLIES OF CONSUMPTION

At the recent conference of the British Association for the Prevention of Consumption and other forms of Tuberculosis, Sir William Osler, Regius Professor of Medicine at the University of Oxford, made some noteworthy statements. He said that so widespread was the bacillus that practically all human beings, by the time they reached adult life, somewhere harbored the germ of disease, but all did not die because of having certain powers of resistance, or what is called immunity from the disease. The disease in some was active enough to produce symptoms, with the possibility, however, of arrest or cure. In others again the disease so progressed as to mark them as doomed persons. In his concluding words Sir William indicated the causes of this bane of humanity in the following solemn yet hopeful dicta: "We have tracked the enemy and know his every stronghold, and we know his three allies,—poverty, bad housing, and drink. But though the ravages have been reduced it remains man's most powerful enemy. Before us a long, slow, hundred years' war—or even longer—in which, however, co-operation and enterprise will win out just as surely as it has done against typhus and typhoid."

Sierra Madre Directory

CITY OFFICIALS

BOARD OF TRUSTEES—J. G. Blumer, Chairman; J. C. Pegler, L. E. Steinberger, J. M. Beard, Louis Dietz. Regular meetings in City Hall, second and fourth Thursday evenings.

City Clerk, C. H. Perry; Attorney, C. C. Montgomery; Treasurer, Max W. Wolf; Marshal, Tax Collector, and Street Superintendent, A. M. Udell; Engineer, W. F. Bixby; Superintendent Water Department, F. Biederman.

BOARD OF HEALTH—Dr. R. H. Mackerras, Chairman; F. Biederman, Secretary; J. A. Osgood, A. N. Adams, Dr. A. O. Holmes.

BOARD OF TRADE—Meets second Monday in each month in City Hall. President, F. D. R. Moore; vice president, H. T. Fennel; secretary, E. F. Ballou, treasurer, H. T. Fennel, J. N. Hawks, G. H. Johnson, E. A. Hoffman, Arthur Johnson, Jr., E. C. Carhart.

CHURCHES

CONGREGATIONAL CHURCH—Central Ave., at Hermosa. Rev. W. H. Hannaford, pastor. Sunday school, 9:45 a. m. Morning worship, 11 a. m. Christian Endeavor Society, 6:30 p. m. Evening worship, 7:30 p. m. Midweek prayer meeting, Wednesday at 7:30 p. m.

CHURCH OF THE ASCENSION (Episcopal)—Dr. George H. Cornell, Rector. Residence, The Rectory. Phone Black 6. Sunday school, 9:45 a. m.; Morning Prayer and sermon, 11 a. m.; Holy Communion first Sunday in the month, 11 a. m.; on the greater festival and other days by appointment, 7:30 a. m.; Sunday evening service from October to July, 7:30 p. m.

ROMAN CATHOLIC—Chapel on Highland avenue, east of Baldwin. Rev. M. W. Barth in charge. Services at 9 a. m. Sunday.

HOME OF TRUTH—483 Auburn Ave. Sunday service, 3:30 p. m. Bible lesson, Wednesday, 3 p. m. Healing meeting, Friday, 8 p. m. All are welcome.

PUBLIC LIBRARY

SIERRA MADRE FREE PUBLIC LIBRARY—Central avenue. W. of Lima. Open each weekday afternoon from 1:30 to 5:30 and from 7 to 9 o'clock each evening. Mrs. F. B. Wheatley, Librarian. Municipal Library Board—George B. Morgridge, Chairman; H. J. Potter, Mrs. E. T. Pierce, W. S. Andrews, J. A. Osgood.

FRATERNAL

SIERRA MADRE LODGE, No. 408, F. & A. M.—Stated meeting first Tuesday in

WATER CODE IS ADOPTED BY TRUSTEES

Two important ordinances and one important resolution adopted by the city trustees this week are published in this issue of the News. One ordinance is that establishing the city water department and practically providing a code of rules for its regulation, rates for water service, extensions, etc. The ordinance is too lengthy and detailed for even a summary. Every property owner and water user should take time to give it some study and become familiar with its essentials.

So far as the effect on most water users is concerned there will be nothing in the operation of the water system to indicate that a charge has taken place, except the provision that water bills are no longer payable in advance. In the past every consumer paid his service charge for the month to come, with whatever charge he had accumulated for excess water in the month just past. In future both the regular service charge and excess charges for a given month will be payable on the first of the following month, with the customary 25-cent rebate if paid before the 15th. To effect this change the September 1 water bills will contain no service charge. The August service charge was paid at the beginning of the month and the September charge will not be due until October 1.

Tax Rate Fixed

As announced tentatively two weeks ago, the city tax rate for the coming year will be \$1.70. This amount will cover a period of 16 months. It was necessary to provide revenue for this long period by reason of the change in the city's fiscal year which will henceforth end on June 30 in conformity with other cities instead of on February 28.

The \$1.70 rate is divided into three funds, 93 cents being for general purposes, such as clerical, police, streets, etc.; 10 cents for the public library purposes; and the remaining 67 cents for water bond interest and sinking funds.

Assessment Completed

Completion of the Assessment roll by the county assessor's office shows the assessed valuation of Sierra Madre city to be \$1,498,000. This will provide a total of about \$25,500 for all purposes. The remaining amount necessary to carry the city through as provided in the budget ordinance will be raised from other sources, chiefly the revenues of the water department and the license tax ordinance.

HOME OF TRUTH

Devotional services on Sunday, August 30, at 3:30 p. m., at the Home of Truth, corner Auburn and Carter avenues. Harriet C. Hamor will conduct the services. Everyone cordially welcome. Sunday school at two o'clock. All children welcome.

each month. All visiting Masons welcome. Club House Hall, H. E. C. Webb, W. M.; G. E. Coapman, secretary.

SIERRA MADRE CHAPTER, O. E. S., No. 209—Meets the first Mondays of each month in Woman's Club House Hall at 8 p. m. Visiting members welcome. Mrs. F. J. Sokol, W. M.; Mrs. G. E. Coapman, Secretary.

MONROVIA STEAM LAUNDRY.
The Monrovia Steam Laundry is now
giving Sierra Madre a daily service.

Brief Items of Interest

Cedric Tarr spent last week with
Curtis Flint at Hines.

The Misses Johnson left today for a
two weeks visit in Los Angeles.

Mr. and Mrs. W. W. Collins returned
Tuesday after a three weeks stay at
Balboa.

Mrs. Julian Lincoln and daughter
Martha are visiting Mr. and Mrs. A.
N. Adams.

Mr. and Mrs. F. H. Hartman and
Vera spent three days at Ocean Park
this week.

Mr. and Mrs. Convers Twycross of
Ocean Park are spending the week in
Sierra Madre.

Miss Fern Umbach of Monrovia
spent Tuesday with her sister, Mrs. E.
S. Mollenkopf.

Mrs. Virginia Holland of Los Angeles
is spending a week with her daughter,
Mrs. C. W. Jones.

Mr. and Mrs. W. L. Gilliland and
Billy, Jr., of Riverside, are spending
the week in Sierra Madre.

Miss Hilda Caley and Miss Verna
Tribble left Tuesday morning for a two
weeks stay at Santa Monica.

Mrs. Dossinger and Miss Bessie Gal-
vin of Ontario were recently guests of
Mr. and Mrs. C. C. Bodine.

Mr. and Mrs. Robert J. Kern of Los
Angeles spent a couple of days this
week with Mr. and Mrs. J. R. Allen.

Mrs. Gerald Farnum had as guests
on Wednesday Miss Margaret Best of
Monrovia and Miss Clara Poole of Los
Angeles.

Last Thursday night Dr. and Mrs. L.
L. Krebs were guests of friends in Los
Angeles at a dinner and dance at the
University Club.

The T. C. B.'s accompanied by Mrs.
Sadler as chaperone and Mrs. W. H.
Hannaford left Monday morning for
Strevant's Camp, where they will
stay a week.

Miss Katherine Schwartz returned
Wednesday after a two weeks visit
with her cousin, Miss Katherine
Spalding of Coronado. Miss Spalding
returned with her and will stay in
Sierra Madre about two weeks.

**EMPIRE BUILDERS.**

For all are empire builders here
Whose hearts are true to heav-
en and home
And, year by slow revolving

year,
Fulfill the duties as they come.
So simple seems the task, and
yet
Many for this are crucified.

Aye, and their brother men for-
get
The simple wounds in palm
and side.

But he that to his home is true,
Where'er the tides of power
may flow,
Has built a kingdom great and
new

Which time nor fate shall
overthrow.
These are the empire builders;
these

Annex where none shall say
them nay
Beyond the world's uncharted
seas,
Realms that can never pass
away.

—Alfred Noyes.

Her Opportunity.

The man hater had just announced
her engagement.

"But you always said that men were
horrid creatures," said her friends.

"So they are," replied the bride to
be, "and here's my opportunity to pun-
ish one of them."

They all agreed that it was real no-
ble of her.—Philadelphia Ledger.

Resolution No. 62

Resolution of the Board of Trustees of
the City of Sierra Madre Fixing the
Tax Levy for the Year 1914-1915.

WHEREAS the Board of Trustees on
the 26th day of August, 1914, passed
Ordinance No. 191 entitled "An Ordinance
of the Board of Trustees of the City of
Sierra Madre fixing the amount of
money necessary to be raised by
taxation upon the taxable property of
said city as a revenue to carry on the
various departments of said city and to
pay the bonded indebtedness for said
city and interest thereon, for the year
1914-1915," and,

WHEREAS the County Assessor has
assessed the value of the taxable prop-
erty in the City of Sierra Madre and
the same as equalized has been re-
turned to the Board of Trustees by the
County Auditor as \$1,498,230.00.

NOW THEREFORE, The Board of
Trustees of the City of Sierra Madre
does hereby fix the rate of taxes suffi-
cient to raise the amount so fixed by
the Board in the Ordinance above de-
signated and the expense of collecting
as follows:

There shall be levied on each One
Hundred Dollars worth of taxable prop-
erty within the city of Sierra Madre
for Municipal purposes for the year
1914-1915, the following sums, to-wit:
For the General Fund\$0.93
For the Library Fund10

Total \$1.03

And in addition to the above sum pro-
vided to be levied for Municipal pur-
poses there shall also be levied upon
each \$100 worth of taxable property
in the City of Sierra Madre for the
purpose of interest and sinking fund of
said city for the year 1914-1915, the
following sum, to-wit:

1910 Election Water Bond
Interest Fund\$0.13
1910 Election Water Bond
Sinking Fund07
1911 Election Water Bond
Interest Fund37
1913 Election Water Bond
Interest Fund07
1913 Election Water Bond
Sinking Fund03

Total67
Total Tax Levy \$1.70

The City Clerk shall certify to the
adoption of this resolution, shall cause
the same to be published once in the
Sierra Madre News, a weekly news-
paper published and circulated in the
City of Sierra Madre, and shall trans-
mit immediately to the County Auditor
of the County of Los Angeles, a cer-
tified copy of this resolution and a state-
ment of the rate fixed by the Board of
Trustees.

Signed and approved this 26th day
of August, 1914.

JOHN GEO. BLUMER,
President, Board of Trustees.

geles, ss.

I, C. H. Perry, City Clerk and Clerk
of the Board of Trustees of the City
of Sierra Madre, do hereby certify,
that I am the duly elected, qualified
and acting City Clerk and Clerk of the
Board of Trustees of the City of Sierra
Madre; that the foregoing resolution
was adopted at a special meeting called
for the purpose among other things of
passing upon said resolution, said
meeting being called for and held on
the 26th day of August 1914, that at
said meeting the foregoing resolution
was adopted and passed by the affirma-
tive vote of at least three trustees, to-
wit:

Ayes: Trustees Dietz, Steinberger
and Blumer.

Noes: None.

Absent: Beard and Pegler.

PLEADING HIS NEPHEW'S CAUSE

What Happened to a Man Who Wooed For Another.

"Uncle, I want your assistance."
"What's the matter, Joe?"
"You know Ellen Pickering?"
"Yes; a lovely girl."
"I want her. She is a very advantageous match. Help me to get her."
"How can I help you?"
"Uncle, you are devoted to her mother—don't deny it—and the widow is devoted to you. Your influence will turn the scale in my favor."
"Pooh, boy! Do you suppose a man of forty-five, an old bach, is a proper person to interfere in love affairs? Besides, are you sure Miss Pickering wishes to marry you?"
"No. I wish your intercession with her too."
"Very well; I will see what I can do."

The next evening Major Joseph Stone, feeling in honor bound to keep his pledge to his nephew, called at Mrs. Pickering's.

"I have come to plead a cause," he said nervously. "Your daughter is a lovely woman, and I have come with reference to a proposal—from one whose heart!"

The major broke down.
"Indeed!" The lady looked curious and pleased.

"He may be a little off as to age"—
"That would be no objection. I assure you."

"Then his income is very limited; but, you see, I—"

"I see very clearly, major. The income is of no consequence. My daughter is very well off. What she wishes is a man she can respect and love and be proud of. The hero of—"

"Pardon me. Heroism has nothing"—
"Not another word, major. Modesty is the most charming of qualities. You will find Ellen in the music room."

The major disappeared in the music room, and at the same moment Miss Pickering opened the door of the parlor, where she had left her mother.

"Oh, Ellen, I thought you were in there! Your hero has come to propose for you. Fortunate girl! He is returning. I will leave you here." And as the major re-entered the mother disappeared.

"Mamma was mistaken, major. Here I am."

"I am glad to see you looking so charming, for a woman cannot well look charming without feeling charming. This will make easier a delicate mission I have to execute."

"I am listening."

"I came to plead a cause, the cause of one who loves you."

"Oh, major!" dropping her eyes.

"Yet one who admits that he needs some friend to help him."

"He needs no one but my mother. If she is pleased there is no one else to be considered."

"Your mother sent me to you, wishing me success. She has noticed the drift of this affair, and she will be delighted with the match. You see, you have every good quality, while the man, though a trifle young for you—"

"Ha, ha! What a pleasant irony! The man is just the age I would choose. You know I am a young thing of twenty-eight."

"He has many estimable qualities. I can assure you."

"Oh, major, how you amuse me! A trifle! You are stumbling along as you stumbled up San Juan hill."

"That was an easy job compared with this," taking out his handkerchief and wiping the perspiration.

"I always said, major, even when a little girl, that I would marry none but a hero."

"That's too bad," disappointedly.

"The heroism in this case—the heroism of physical courage—has never yet been proved, but I dare say upon opportunity!"

"You dear major! You say that as innocently as if it were really true. Doubtless you think it so. The greatest heroes are the least aware of their heroism. One thing I will admit—because a man is a military hero it doesn't follow that he has courage in telling a woman he loves her."

"I confess there is some cowardice in this case. A man should not employ any one but himself to plead his cause with a woman."

"But mamma doesn't count, you know. You can't be accused of cowardice for speaking to her first. Major, you are as utterly unfitted for a proposition of this kind as you proved yourself fitted to lead men in battle."

"Well, then, to cut the matter short, you accept?"

"I do, most assuredly."

"Then, having nothing more to do, I shall wish you a very good evening and much happiness," moving away.

"Nothing more to do, major?" drawing very near and looking up at him reproachfully.

"Nothing whatever. It's all settled."

"Then I have something to do."

Throwing her arms about the major, she drew his face down till his lips were within an inch of her own.

"I know you love me, dear major, though you have been too blundering to tell me so, and I love you dearly."

"By thunder!" exclaimed the major internally, then externally: "Love you! I have loved you since you were a child."

.....

"Confound that uncle of mine!" said Joe Stone, Jr., shortly after to a friend.

"I sent him to plead my cause with a girl, and he got her for himself!"

OLEANDERS OF BERMUDA.

In Summer Time They Fairly Run Riot Over the Islands.

Back in the fifties, when Anthony Trollope held a roving commission as postoffice inspector for the British government, he visited Bermuda, then practically unknown to any people save mariners. The distinguished author said some uncomplimentary things about the native Bermudians, much to their amusement, but he could not help praising the scenery of their island home and particularly the oleanders. He voted that Bermuda should be called the "Oleander Isles."

Curiously enough, Bermuda is better known as the home of the onion and the Easter lily, to say nothing of the potato and the rose, although the oleander is the most gorgeous and conspicuous shrub in the islands. Shrub is hardly the word to describe the oleander. It is really a tree, lifting its top twenty feet in the air and growing in thickets that the island planters use as screens or windbreaks.

In summer the hedges are covered with a profusion of pink, white and crimson blossoms that last well into the autumn and make great splashes of color on the hills and at the roadside. The oleander has no enemies. Animals refuse to touch it, and the tree runs its riotous way all over the islands. Those who visit Bermuda only in winter miss the glory of the oleander blossoms and also many of the other gorgeous flowers. While there is plenty of bloom in the winter months, the array of flowers is even greater in summer.—New York Post.

MOTHER'S BAKING DAY.

Modern Conditions Make It Practically a Thing of the Past.

We do not propose either to affirm or to deny that the bakers make better bread than "mother used to make." There used to be as many kinds of mothers as there are now varieties of bakers. And comparisons are odious.

But the baker is to be hailed as one of the chief benefactors of the age, on grounds which take no account of the relative merits of bread. He has emancipated women, at least one day out of the week. He has given a vast army of mothers more time to perform the duties other than those which have to do with the kitchen.

It needs no patriarch to remember what baking day used to be like. In summer's heat the stove had to be fired up to the melting point, and mother had to knead the dough until her back ached, and stick around in the kitchen lest the crust become too hard, and watch against a hundred other mischances which are to be expected when the heat releases the chemical action of the ingredients in the bread pan.

Baking day is a thing of the past in thousands of homes—at least, the old-fashioned baking day is. The bread may be better or worse, but the baker is to be regarded as a benefactor in that he has practically put an end to that old roasting experience which formerly came to every woman at least one day out of seven.—St. Louis Times.

Why It Is the St. Lawrence.

The St. Lawrence river owes its name to the accidental conjunction of the festival of St. Lawrence with the day upon which the first explorer imagined he had discovered the river.

Jacques Cartier in 1534 heard from the natives of the Magdalen Islands of a mighty stream threading the continent to an unknown source, and it was while testing this legend that he sailed up the gulf until he could see the land on each side. In the following year he made a bolder expedition with three ships and the blessing of the Bishop of St. Malo. He sailed past Rimouski and on to Quebec, then known by the Indians as Stadacona. Here the fleet anchored. The French, however, failed in their efforts to colonize the country until a century had passed, largely owing to their high handed treatment of the Indians.—London Chronicle.

Tragic Wager.

In 1895 three Irishmen agreed to undertake a journey around the earth on foot for a pool of \$150,000. Each one of the party deposited one-third of this sum in the Bank of Dublin, and it was agreed that whoever survived the trip and returned should receive the whole amount. In case all died a Dublin hospital was to become the beneficiary. On Dec. 24, 1895, they started east across Europe and Asia Minor to Egypt, where they took passage for Australia. Their wanderings through the inner wastes of Australia proved the hardest trials of the journey, and the severity of this trip resulted in the death of two of the travelers. The third, Captain Trevelyan, completed the voyage and won the money.

Puzzled.

The lady of the house was explaining things to the new colored maid.

"An' what's this, missus?" asked the girl, indicating a metal bottle.

"That is a bottle which will keep things either hot or cold, whichever you desire," replied the mistress.

"Well, foh the land sake," ejaculated the girl, "how is it gwine to know whether you want things hot or cold?"

—Everybody's.

Out of His Mouth.

His youngest grandchild had managed to get possession of a primer and was trying to ent it.

"Pardon me for taking the words out of your mouth, little one," said the professor, hastily interposing.—Chicago Tribune

A man can never do anything at variance with his own nature. He carries with him the germ of his most exceptions! action.—George Eliot.

Ordinance No. 190

An Ordinance of the City of Sierra Madre Establishing a Water Department, Water Rates and Regulations for the Use of Water.

The Board of Trustees of the City of Sierra Madre do ordain as follows:
SECTION 1. A Water Department is hereby established, consisting of the members of the Water Committee of the Board of Trustees.

Said Committee shall appoint a Superintendent and an Accountant subject to the approval of the Board and to serve during the Board's pleasure and at such compensation as shall be fixed from time to time by the Board.

SECTION 2. The Water Committee shall meet monthly on each Tuesday of each month, immediately preceding the first monthly meeting of the Board of Trustees, and also at the call of the Chairman.

SECTION 3. The Superintendent shall, subject to this ordinance and the rules and regulations of the Board, manage, control and supervise the distribution, measurement, and pumping of water, the repairs to plant and machinery and the general maintenance of the Water Department.

SECTION 4. The Accountant shall keep all the books, minutes, records and accounts of the Department and shall render and collect all bills. He shall promptly pay into the treasury of the City the proceeds of all collections made by him and shall report the amounts of such collections and treasury deposits to the Water Committee at each monthly meeting, together with a list of consumers that are more than one month in arrears.

SECTION 5. All moneys received by the City Treasurer from the Water Department shall be credited to a "Water Revenue Fund." Moneys paid out of such fund shall be only upon warrants properly drawn and distinctly designating said fund.

SECTION 6. Measurements of water by meter shall be made and recorded by the Superintendent each and every month in the year.

SECTION 7. Distribution and time allotment of water to irrigators and consumers shall be under the control of the Superintendent.

SECTION 8. All water shall be delivered through meters.

SECTION 9. Water rates shall be for the first 500 cubic feet or less delivered monthly through any meter.....\$1.50. For every additional 100 cubic feet .05

Where the monthly meter registration is less than 500 cubic feet, and written notice has been given to the Water Department that the premises served are unoccupied or have been unoccupied for less than a month, the monthly rate shall be 50c plus a charge of 25c for every 100 cubic feet of water registered by the meter, but not to exceed \$1.50.

SECTION 10. Upon written request accompanied by 50c, the Water Department will shut off and seal a meter.

No further water charges will then accrue until notice has been received that water is again desired, whereupon the Superintendent shall break the seal, turn on the water and again apply the regular water rates.

SECTION 11. All bills for water shall be due and payable at the City Hall on the first day of each month.

If paid before the 15th of the month, a cash discount of 25c shall be allowed.

All bills remaining unpaid on the 20th of the month are delinquent and the water may be shut off from the premises against which a bill is overdue.

SECTION 12. The Water Department shall have a right in its discretion to require in special cases, payment in advance for water in an amount sufficient to cover a quantity estimated to be used.

SECTION 13. Every unpaid bill for water shall become a charge against the property on which it is furnished and against the owner thereof. When water is shut off for delinquent bills, it shall not be turned on again until all such delinquencies shall have been paid in full with \$1.00 in addition for expense of turning water off and on. No change of ownership or occupation shall affect the application of this section.

SECTION 14. Whenever during the winter and spring months in any year there is a surplus of water available, the Board of Trustees may dispose of such water at special rates to be determined by it. Such temporary reduction of rates and charges shall be without prejudice to a return to the regular rates.

SECTION 15. Every person desiring a run of water for irrigation purposes must register with the Superintendent at least ten (10) days prior to the beginning of each irrigating season. Such registration shall specify the property and acreage to be covered, may indicate a preference as to time and quantity of water desired, and shall obligate the irrigator to accept water in the quantities so indicated and at such times as the Superintendent may direct, subject to the Superintendent's right to limit the quantity of water as the supply may require.

SECTION 16. The Superintendent may give notice by post card to registered irrigators of the time when delivery of water will be made. Persons who have failed to register before the time specified above may receive water at the discretion of the Superintendent. The Superintendent may refuse to deliver water to those who are delinquent in payments for water previously supplied.

SECTION 17. It shall be unlawful to interfere with or without the permission of the Superintendent, to remove a fixed water meter from any service where it is attached.

SECTION 18. All water meters installed by the water department shall

remain at all times the property of the City and shall be maintained and repaired and renewed by the City when rendered unserviceable through fair wear and tear; provided, that where replacements, repairs or adjustments of any meter are rendered necessary by the act, negligence or carelessness of the consumer, any expense caused to the Department thereby shall be charged against the premises and collected from the consumer.

SECTION 19. Upon demand in writing and the deposit of \$1.00 by a consumer, he may have his meter examined and tested by the Water Department for the purpose of ascertaining whether or not it is registering correctly the water being delivered through it. If the meter shall be found to register three (3%) per cent more water than actually passes through it, another meter will be substituted therefor and the \$1.00 shall be repaid to the applicant and the water bill for the current month adjusted in such manner as the Chairman of the Water Committee shall deem fair and just. If the meter be found accurate the deposit shall be forfeited to the City and the water bills paid as rendered.

SECTION 20. If a meter fails to register, or registers inaccurately, the consumers shall be charged with an average daily consumption shown by the meter when in use and registering accurately.

SECTION 21. Approved check valves shall be installed at the expense of the consumer on the property side of the water meter where necessary for the safety and protection of the water system or appliances thereof.

SECTION 22. Rebates from the rates hereinbefore specified may be made to indigent persons by the Chairman of the Water Committee, subject to the approval of the Board of Trustees at its next meeting.

SECTION 23. No water shall hereafter be served to two or more parcels or subdivisions of property, separately owned, through a common meter unless the consumer first in order of service from the main shall, in writing, guarantee the payment of water rates for all parcels of property so served. The Superintendent shall give ten (10) days' notice in writing to all consumers served through such common meter before enforcing this section by cutting off water.

SECTION 24. No water shall hereafter be served to two or more different and independent consumers of water on premises held under the same ownership unless independent service to the curb line be provided by the owner of such premises for each such independent consumer, or said owner shall, in writing, guarantee the payment of water rates for all consumers served through a common meter. The Superintendent of the Water Department shall give ten (10) days' notice in writing to such consumers before enforcing this section by cutting off water.

SECTION 25. Nothing in the two foregoing sections shall limit the power of the Water Department to require the installation of separate meters in place of a common meter.

SECTION 26. No person shall be entitled to water until the owner of the premises shall make application for a service connection to the City main on a form provided by the Water Department in the City Hall.

SECTION 27.—Applications for connections must be accompanied by service connection deposit according to the following schedule:

Up to and including 5/8" service.....\$9.00
5/8" service.....12.00
1" service.....15.00
1 1/2" service.....25.00
2" service.....35.00

SECTION 28. This deposit required by section 27 is to be used for installing the necessary service equipment to within the curb line of the property. Any surplus shall be refunded to the applicant. Any excess shall become due and payable by the applicant immediately, and no water shall be delivered until payment in full has been made.

SECTION 29. No by-pass or connection between the meter and the main shall be made or maintained except with the written permission of the Superintendent to be given only in the case of private fire or irrigation service. It shall be unlawful to use any of such by-passes for any other purpose than that for which they are installed. If used for any other purposes or (save in case of fire) at any other times than allowed by the Superintendent, there shall be charged and collected for such service amounts equal to double the ordinary charges for water.

SECTION 30. It shall be unlawful for any person to draw water from any city pipes directly into any stationary steam boiler, hydraulic elevator, power pump, or similar apparatus.

SECTION 31. It shall be unlawful for the occupant of any premises to turn on water or suffer or cause it to be turned on after it has been shut off at the curb cock by the Superintendent.

It shall be unlawful for any consumer without the written consent of the Superintendent to supply water to any person, firm or corporation other than the occupant or occupants of the premises of such consumer.

SECTION 32. It shall be unlawful for any person to tap, open or connect with any water main or pipe which forms any part of the system of the water works of the City of Sierra Madre without the written permission of the Superintendent.

SECTION 33. Fire hydrants shall be placed by the Water Department, the cost of which shall be paid out of the General Fund or other fund appropriated for that purpose. Fire hydrants shall be maintained, served with water and repaired, when necessary, by the water department at the monthly rate

of \$2.00 per hydrant, provided, that when so ordered by the Board of Trustees no charge shall be made for hydrants inadequate for fire service, but such cost of maintenance and repairs of such hydrants shall be paid out of the General Fund or other fund appropriated for that purpose.

SECTION 34. Fire hydrants are provided for the purpose of extinguishing fires. It shall be unlawful for any one to use fire hydrants without a permit from the Superintendent. No permit shall be issued to any person who has violated any of the provisions of this ordinance or whose indebtedness under this ordinance is delinquent.

SECTION 35. Every person authorized to open fire hydrants must replace the caps on the outlets when not in use. Failure to do so is cause prohibiting further use of hydrants and the granting of subsequent permits.

SECTION 36. All water outlets through which continuous streams of water can be conducted, must be shut off promptly upon an alarm of fire being given, and shall not be turned on again until the fire occasioning such alarm shall be extinguished.

SECTION 37. Except in emergency of fire it shall be unlawful for any person other than an employee of the Water Department to break a seal or turn water into premises from which the Water Department has cut it off.

SECTION 38. The Water Department of the City of Sierra Madre shall be paid out of the General Fund or other appropriate fund at the regular water rates for all water furnished to the City and its various departments; excepting that payment for water used in extinguishing fires shall be considered as being included in the fire hydrant rates hereinbefore mentioned.

SECTION 39. In case any authorized employee of the Water Department be refused admittance to any premises, or being admitted shall be hindered or prevented from making an examination of the water fittings or connections, the Superintendent may cause the water to be turned off from said premises after giving twenty-four hours' notice to the owner or occupant of said premises of his intention so to do.

SECTION 40. The Water Department shall have the power to turn off water from mains and pipes of the system without notice. In all cases where it is possible to do so, the Superintendent shall give notice of such turning off to the consumers likely to be affected.

SECTION 41. Extensions may be made by the Board of Trustees to serve territory not already supplied by the municipal water works under the following rules, to-wit:

Rule 1. Pipe across street intersections will not be included in the measurement for extensions.

Rule 2. No pipe shall be laid in streets not formally dedicated to public use.

Rule 3. An extension not exceeding 200 feet from the nearest point of any main designated to serve territory in which the property of the applicant is situated may be made upon application to the Board of Trustees and the deposit with the Accountant of 40c per front foot of the property to be served abutting on the street in which such extension is to be made, in addition to the regular charge for service connection.

Rule 4. Applicants may combine to have a main extended provided the aggregate length of the extension does not exceed 200 feet for each actual permanent consumer.

Rule 5. Extensions in excess of 200 feet for each actual permanent consumer may be made on a formal application therefor to the Board of Trustees, accompanied by a map showing the route over which the extension is to be made and by a deposit with the Accountant of 80c per lineal foot for all pipe in excess of the amount covered by the 200 foot rule aforesaid required by Rule 3; such deposits to be refunded to the payor or his assigns in semi-annual installments as deposits are made by other abutting owners for service connections.

Rule 6. All property fronting on streets in which extensions shall hereafter be made will be required to pay a frontage assessment of forty cents (40c) per front foot, in addition to the regular charge for the service connection for such property, before water will be served to it; such payment to be made at the time the service is applied for.

SECTION 42. Where any subdivision or parcel of land occupied by two or more independent consumers of water is served through a pipe or lateral, existing at the time of the transfer of the Sierra Madre Water Company's properties to the City of Sierra Madre and not included in said transfer, and where such pipe or lateral causes a loss of water to the City through leaks or defects, the Water Department through its Superintendent shall give thirty (30) days' notice to the consumers connected with the defective pipe or lateral requiring them to repair, replace or renew such pipe or lateral, and on their failure to do so, he shall shut off the water from such pipe or lateral.

Such consumers may, however, at their option, avail themselves of the provisions contained in Section 41 of this ordinance by presentation to the Board of Trustees of formal application requesting the Water Department to replace at the expense of the petitioner or petitioners the defective pipe or pipes, lateral or laterals, such replacement to be under the rules provided in Section 41 of this ordinance, the petitioners likewise undertaking to bear the cost of renewing their service connections.

SECTION 43. A violation of any of the provisions or prohibitions contained in Sections 17, 29, 30, 31, 32, 34, 36 or 37 shall constitute a misdemeanor and upon conviction thereof the offend-

er shall be punishable by a fine, not to exceed Three Hundred (\$300) Dollars, or by imprisonment not exceeding thirty days, or by both such fine and imprisonment.

SECTION 44. The City Clerk shall certify to the adoption of this ordinance and shall cause the same to be published once in the Sierra Madre News, a weekly newspaper published in the City of Sierra Madre and here designated for that purpose and from and after the expiration of thirty (30) days from the publication thereof the same shall take effect and be in force.

The foregoing ordinance was adopted at a regular meeting of the Board of Trustees held on the 27th day of August, 1914, by the affirmative vote of at least three (3) trustees, to-wit: Ayes: Dietz, Pegler, Steinberger and Blumer.

Noes: None.
Absent: Beard.
Signed and approved this 27th day of August, 1914.

JOHN GEO. BLUMER,
President Board of Trustees.

Attest:
C. H. PERRY,
City Clerk.
(Corporate Seal City of Sierra Madre)

Notice Inviting Bids for Public Work

Pursuant to statute and to resolution of the Board of Trustees of the City of Sierra Madre directing this notice, said Board of Trustees hereby invites sealed proposals or bids for doing the following work in said city, to-wit:

For replacing the old four-inch pipe line with a new steel riveted six-inch pipe line on South Hermosa avenue for a distance of 1,765 feet more or less from Central avenue to Live Oak avenue in said City of Sierra Madre in accordance with specifications of the water superintendent approved August 13, 1914, and on file in the office of the City Clerk, numbered 13, and plans numbered pipe line plans number 1.

All proposals or bids shall be accompanied by a check payable to the City Treasurer, certified by a responsible bank for an amount which shall not be less than 10 per cent of the aggregate of the proposal. The Board reserves the right to reject any and all proposals or bids should it deem this for the public good, and shall reject all proposals or bids other than the lowest regular proposal or bid of any responsible bidder. Such sealed proposals or bids shall be delivered to the clerk of the board of trustees on or before 7:30 o'clock p. m. of the 31st day of August, 1914, said time being not less than two weeks from the first publication of this notice. The bids will be opened on said day and hour.

C. H. PERRY,
Clerk of the Board of Trustees of the City of Sierra Madre and of said City.
Dated August 13, 1914. 87-97

CERTIFICATE OF BUSINESS

Fictitious Firm Name

THE UNDERSIGNED do hereby certify that they are conducting an electrical supply and construction business at 22 East Highland avenue, Sierra Madre, California, under the fictitious firm name of Sierra Madre Electrical Company and that said firm is composed of the following persons, whose names and addresses are as follows:

G. I. Farman, Sierra Madre, Cal.
W. E. Farman, Sierra Madre, Cal.
R. E. Adelmeier, Sierra Madre, Cal.
Witness our hands this 14th day of August, 1914.

G. I. FARMAN,
W. E. FARMAN,
R. E. ADELMAYER.

STATE OF CALIFORNIA, County of

Los Angeles.—ss.

On this 14th day of August, 1914, before me, W. S. Andrews, a Notary Public in and for said County of Los Angeles, residing therein, duly commissioned and sworn, personally appeared G. I. Farman, W. E. Farman, and R. E. Adelmeier, known to me to be the persons whose names are subscribed to the within instrument, and acknowledged to me that they executed the same.

Witness my hand and official seal, (Seal) W. S. ANDREWS,
Notary Public in and for said Los Angeles County, State of California.

BARGAIN FOR HOME HUNTER

Attractive, plastered bungalow, 4 rooms, bath and large screen porch, on east front lot 50x200.

Street improvements in and paid for, and street shade trees. Stable suitable for garage.

This property is in a good neighborhood, well located, and should be a good buy for renting or for your own home.

If you are looking for something of this kind the price will interest you.

OWNER

Ordinance No. 191

An Ordinance of the Board of Trustees of the City of Sierra Madre Fixing the Amount of Money Necessary to be Raised by Taxation Upon the Taxable Property in Said City as a Revenue to Carry on the Various Departments of Such City and to Pay the Bonded Indebtedness of Said City and Interest Thereon, for the Year 1914-1915.

The Board of Trustees of the City of Sierra Madre do ordain as follows:

SECTION 1. There is hereby fixed the amount of money necessary to be raised by taxation upon the taxable property in the City of Sierra Madre as a revenue to carry on the various departments of such city for the current year, to-wit, 1914-1915, not to exceed the limit fixed by law, as follows:

General	\$7054.00
Administration	\$4000.00
Office	1200.00
Elections	187.00
Advertising	534.00
Fire service	333.00
Contingencies	800.00
Police	2480.00
Health	1680.00
Library	2000.00
Streets	9146.00
Administration	1066.00
Cleaning	1600.00
Repairs	4000.00
Lighting	2480.00
Water	12600.00
Administration	800.00
Collection	1200.00
Operation	4667.00
Taxes	1333.00
Depreciation	1934.00
Gross Annual Expenses	34960.00
Income from other sources	19500.00

Amount to be raised by Taxation \$15460.00

SECTION 2. There is hereby fixed the amount of money necessary to be raised by taxation upon the taxable property within the City of Sierra Madre to pay the bonded indebtedness of said city including interest thereon, the following sums:

1910 election water bond interest fund	\$1900.00
1910 election water bond sinking fund	1000.00
1911 election water bond interest fund	5550.00
1913 election water bond interest fund	975.00
1913 election water bond sinking fund	500.00
Total	\$9925.00

SECTION 3. That the sum of \$2,900 be and the same is hereby appropriated and set apart out of the moneys paid into the fund of said city heretofore created, and known as the "Water Works Bond Election 1910, Interest and Sinking Fund" in the Treasury of said City to be used to meet the sums coming due before the time of fixing the general tax levy of said city for the fiscal year 1915-1916, for interest and principal upon said water works election 1910, as follows, to-wit:

Due December 1, 1914, 38 coupons at \$25	\$ 950.00
Due June 1, 1915, 38 coupons at \$25	950.00
Due June 1, 1915, Bond 3 at \$1000	1000.00
SECTION 4. That the sum of \$5,550.00 be and the same is hereby appropriated and set apart out of the moneys to be paid into the fund of said city, heretofore created and known as the "Water Works Bonds, Election 1911, Interest and Sinking Fund," in the Treasury of said city, to be used to meet the sums coming due before the time of fixing the general tax levy of said city for the fiscal year 1915-1916, for interest upon said Water Works Election 1911, as follows, to-wit:	
Due December 1, 1914, 111 coupons at \$25	\$2775.00
Due June 1, 1915, 111 coupons at \$25	2775.00

SECTION 5. That the sum of \$1,475.00 be and the same is hereby appropriated and set apart out of the moneys to be paid into the fund of said city heretofore created and known as the "Water Works Bond, Election 1913, Interest and Sinking Fund" in the Treasury of said City, to be used to meet the sums coming due before the time of fixing the general tax levy of said city for the fiscal year 1915-1916, for interest and principal upon said Water Works Bond Election 1913, as follows, to-wit:

Due November 1, 1914, 39 coupons at \$12.50	\$ 487.50
Due May 1, 1915, 39 coupons at \$12.50	487.50
Due May 1, 1915, Bond 2 at \$500	500.00

SECTION 6. That the sum of \$2,000.00 be and the same is hereby appropriated and set apart out of the moneys to be paid into the fund of said city heretofore created and known as the "Library Fund."

SECTION 7. The City Treasurer shall use the foregoing sums appropriated in sections 3, 4, 5 and 6 above for the purpose of making the payments respectively in said Sections set out and for no other purpose or purposes whatsoever.

SECTION 8. The City Clerk shall certify to the adoption of this ordinance, and shall cause the same to be published once in the Sierra Madre News, a weekly newspaper published and circulated in the said City of Sierra Madre and hereby designated for that purpose, and from and after 30 days thereafter the same shall take effect and be in force.

The foregoing Ordinance was adopted at a special meeting of the Board of Trustees of the City of Sierra Madre held on the 26th day of August, 1914, said meeting having been called among other things for the purpose of passing upon said ordinance, being passed by

EDITORIAL CHAT

Not Yet—

Through with politics for awhile? Oh, no, my boy, the fight has just begun.

Good Medicine—

Anyone who thinks the scriptures are dry reading ought to take a look at the South Pasadena Record. That enterprising journal has begun the publication of the New Testament in serial form. The gospel narrative is treated like a current news story in the present tense. The effect of playing up some of the incidents related by Matthew with a double column head on the first page is rather startling. To read unexpectedly in bold type at the head of the first column of the paper that "Jesus Heals the Sick and Lame in Many Cities" affects one in a peculiar way. Perhaps the little start with which we grasp at the idea may make it a little easier to realize the effect on the people of 1900 years ago.

Standpat Consistency—

Up to Tuesday afternoon some of the standpat politicians were using every effort to secure the knifing of such candidates as Eshelman, whose name appeared on the ballots of other parties than those for which they were registered. No sooner had the amazing strength of Eshelman been revealed by

the affirmative vote of at least 3 trustees, to-wit:

Ayes: Trustees Dietz, Steinberger and Blumer.

Noes: None.

Absent: Beard and Pegler.

Signed and approved this 26th day of August, 1914.

JOHN GEO. BLUMER.

President, Board of Trustees.

Attest:

C. H. PERRY.

City Clerk and Clerk of the Board of Trustees.

(Corporate Seal)

Nature's Armor.

Lobsters and crabs are familiar examples of armor bearing creatures. The lobsters have wonderful coats of mail suggestive of those devised by human warriors in the age of chivalry. They combine perfect security with ease of movement, owing to their jointed structure. The manner in which crabs when at rest tuck their legs beneath them so as to bring them under the shelter of the hard carapace is interesting. The crab is doubly protected, for it resembles a water worn pebble, and thus looks to large fishes, which like to eat the crustacean—so long as it keeps still—very similar to the objects with which it is surrounded.

Only the Telephone.

Indignant Charwoman—Why didn't you let me in? I've been ringing and ringing—

Young Housemaid—You kept on so regular I thought it was only the telephone.

Postcards at the News Printery

his nomination as the Republican candidate for lieutenant governor than some of the same political tricksters began gleefully to hand out the "dope" to the effect that Eshelman's popularity would be an element of strength to Fredericks in his race against Governor Johnson. Anything to win!

Nothing Like It—

Have you done your duty by spreading Sierra Madre's fame as a summer resort?

Sure Thing—

Election of Hiram W. Johnson to succeed himself as governor of California is conceded by almost everyone except the professional politicians whose business it is to make people believe they think otherwise. Dozens of Republican and Democrats were heard to say on Tuesday they would vote their party tickets at the primary as a matter of form but they could not for the life of them see any reason for voting against Johnson in November. "He has done the things we elected him to do four years ago and has given the kind of faithful service that should be rewarded," is the common verdict. The number of voters who wrote his name on other party tickets is merely a straw but it points straight to Johnson's election by an overwhelming majority.

Origin of the Word Academy.

Academeus was a wealthy Greek of Athens who lived several hundred years before the birth of Christ. Among his possessions was a beautiful grove, where young men used to congregate and listen to the teachings of wise men, such as Plato and Socrates. This developed into the school of modern times, and these modern schools take their name "academy" from the old Greek Academeus. The real meaning of the word academy is a school for boys.

Economy Hints

A penny saved is a penny earned.—Benjamin Franklin.

NOT every material that is dubbed "wash" deserves its name. In planning your practical tub dress, therefore, always get a sample of the material and not only wash it, but iron it. Some colors stand water that change with a hot iron. Save for the small child do not shrink the goods before making up. Some of the freshness is undoubtedly lost, and often a woman can wear a dress an entire season with merely pressing.

Appropos of pressing, many tub dresses can be made like new by careful pressing with cold starch water. Use a little starch, dampen slightly with a white cloth, a little at a time, and press with a moderately hot iron.

When a colored tub dress is to be laundered set the color by soaking in strong salt water or in sugar of lead. Five cents' worth of the latter to a gallon of water is the correct proportion. Remember in washing colored dresses to use lukewarm water, no strong soaps or alkalis. When possible wash without soap and preferably in a suds. Dry in the shade or at night. Dampen just before ironing.

Just one more word on the kind of materials for the tub frock. Much is heard of the wash crapes. They are beautiful, smart, and save untold time in ironing, but most of them shrink terribly. Be sure in selecting these crapes to test by measured samples their shrinking qualities. It pays to get some of the imported wash crapes, because they shrink less.

Cotton voile, gingham, dimities, batiste, cotton ratines and, of course, the cotton crapes, chambray, reps and fine pique are excellent for the morning or utility dresses. For the dresser ones finer voiles, mulls, batiste, handkerchief linen, Paris muslin and many of the new silk and cotton materials are practical. For more elaborate gowns the wash net and wash chiffons can easily be tubbed if properly made. Dotted swiss is one of the "staples" that should commend itself to every woman because it is "dressy," cool and does not need constant pressing.

Wash silks are also satisfactory. Indeed, many prefer them to the cotton or linen even for the morning frock. You must, however, get a good quality, wash in lukewarm water and iron while still damp. Make exactly like any other tub dress without a lining. If you are inclined to stoutness or perspire freely a thin lawn lining to the blouse will insure better wear.

BE CAREFUL!

How to Wash Cut Glass Without Breaking It.

In washing cut glass, especially that which is deeply cut, never use hot water. If you do the thin places will heat so much more suddenly than the thick portions that they will expand quickly and break the glass.

Have your cut glass in a warm room for several hours before washing it. The water should be just warm, and in it should be put a generous amount of liquid ammonia. Then each piece should be put into the bowl separately and rolled over quickly, so that the entire surface may become wet at once. If the cutting is at all deep rub all crevices with a stiff brush covered with a lather of ordinary soap. Rinse the glass in another bowl containing water of the same temperature, to which has been added a squeeze of blue from the washing blue bag, then dry immediately upon a clean and soft linen towel.

Should you wish to give an added luster polish the glass with alcohol. Hold the piece of glass to be treated over a clean basin and pour the alcohol—which must have been standing in a warm room long enough to lose its chill—over the glass, letting it run down into the basin beneath, so that it will not be wasted. Wipe dry instantly and polish with a soft piece of linen and let the final polish be given by a soft piece of old silk.

How to Use Some Economy Hints.

Air your dresses well and they never will seem stuffy. Clothes never should be shut up in a wardrobe immediately after they have been worn. Let the bodice of a dress hang over the back of a chair for at least half an hour before putting it away. The oldest clothes can be kept fresh and odorless if they are treated in this way.

Mildew is easily removed by lemon juice and plenty of sunshine. Put on lemon juice and let stand in the sunshine. Another method is to use a paste compound of soft soap, a tablespoonful of powdered starch, the juice of one lemon and salt. Cover the spot with the paste and allow it to stand forty-eight hours. A second application may be necessary.

When you break a piece of fine bric-a-brac which has a tubular projection, while it may be very easy to glue it together, you will find it likely to break off again unless more securely fastened. Slip a small cork into the broken end; then glue it to the broken part and adjust both. Now both are tight. One china repairer says that if broken china is tied together and boiled in milk the pieces will adhere and the article will last for many years.

Gas Consumers

In Sierra Madre are guaranteed a saving of

20 to 40%

in cost of fuel by using the

"New Method" Ranges

Compute what this will amount to, in one year for instance, and let us show you samples of these stoves. Prices on them lower than in the city.

Where to Go for Vacation

Here are a few suggestions:

In the first place don't overlook the summer excursion rates to the East and Back. Very low.

Then, out this way we have very low rates to the following resorts:

Yosemite and the Mariposa Grove of Big Trees—Wonders of the World.

LAKE TAHOE—Gem of the Sierras.

SHASTA RESORTS—Pleasure places set amid wild crags.

KLAMATH LAKE—Land of Pine and Fir.

PACIFIC NORTHWEST and CANADIAN ROCKIES. The land that lures.

YELLOWSTONE—Where Geysers gush.

GLACIER PARK—A new wonderland.

SANTA BARBARA—The Mission City.

SANTA CRUZ and MONTEREY BAY POINTS—Where cool sea breezes blow.

Many other cool spots at low rates.

For Literature and Rates apply to local Agent or write F. E. Batturs, Gen'l. Pass. Agent, 302 Pacific Electric Building, Los Angeles.
